

AMENDED

Nº 46578

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

JAN 25 1983

Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed..... FEB 7 1983

Map filed..... FEB 7 1983 under 46577

The applicant..... William G. Bennett and William N. Pennington

c/o CIRCUS-CIRCUS 2880 Las Vegas Blvd. South Las Vegas

Street and No. or P.O. Box No.

City or Town

Nevada 89109

State and Zip Code No.

....., hereby make..... application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.).....

1. The source of the proposed appropriation is..... underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.50 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... Quasi Municipal and domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated:.....

(b) Stockwater, state number and kinds of animals to be watered:.....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: in Government Lot 3 Section 13.....
Describe as being within a 40-acre subdivision of public
T32S R66E MDM from which the Southwest (SW) corner of Section 13 T32S R66E bears
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
S 56° 30' 00" W 3430.00 feet

6. Place of use..... A part of Government Lots 3 and 4, Section 13 T32S R66E MDM Clark
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
County, Nevada

7. Use will begin about..... Jan 1 and end about..... Dec 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Infiltration well system adjacent to the
State manner in which water is to be diverted, i.e. diversion structure, ditches and
Colorado River pumping (200 gpm pump) to pressure system
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works..... \$30,000

10. Estimated time required to construct works two months
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use two years for total application to beneficial use

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. The consumptive usage planned is:

100,000 sq. ft. of Casino @ 0.30 gal/sq.ft/day	30,000 gpd
Arcade and Game area	20,000 gpd
800 Hotel Rooms @ 100 gal/rm/day	80,000 gpd
300 seat Restaurant @ 20/gal/seat/day	6,000 gpd
500 seat Buffet @ 15 gal/seat/day	7,500 gpd
Misc. Administration and Convention area	20,000 gpd
TOTAL	184 AF/yr 163,500 gpd

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a (2) two-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

In the event that such an entity or water district is not available to provide service within five (5) years from the date of issuance of this permit, the permittee is required to proceed to obtain a water supply from the Colorado River-Lake Mead which is the alternate source identified for the basis of the issuance of this revocable permit. The specific date of revocation of this permit will be determined upon a good faith and diligent effort to secure an alternate water source. (PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per seconds but not to exceed 184.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 23, 1984

Proof of completion of work shall be filed before June 23, 1984

Application of water to beneficial use shall be made on or before May 23, 1989

Proof of the application of water to beneficial use shall be filed on or before June 23, 1989

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed IN TESTIMONY WHEREOF, I PETER G. MORROS,
State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed my office, this 23rd day of MAY,

Cultural map filed A.D. 19 83

Certificate No. Issued [Signature]
218 (Rev.) State Engineer

Abrogated By 46799

JUL 3 1 1985

WITHDRAWN BY APPLICANT

[Signature]

12. Remarks (continued): A fire sprinkler system will be installed using a diesel engine drive 3,000 gpm pump. The usage will be minimal except in the event of a fire. The Clark County Fire Department requires 3,000 gpm for 3 hours, or 540,000 gallons, available. This is the equivalent of 1.66 Acre Feet

(PERMIT TERMS CONTINUED)

The total combined duty of water under this permit and Permit 46577 shall not exceed 184.0 acre-feet annually.

The State Engineer may also make a determination as to the influence of withdrawals of water under this permit on the waters of the Colorado River for the purpose of classifying the source under this permit as an infiltration well or gallery.
